- ☐ Update your email signature with your business name and one clear call to action
- ☐ Refresh your website or portfolio homepage headline to match your brand positioning
- ☐ Add or confirm your booking or contact link is visible everywhere

WEEK 2

02 Apply your brand voice across your top channels.

- ☐ Apply your voice guardrails to LinkedIn: rewrite your description and update 2–3 posts using your new tone
- ☐ Draft a "what I do" post or listing update using your transformation statement
- ☐ Extend your voice to personal website: update the bio or description to match your brand
- ☐ Update your email signature or auto-reply with your brand anchor sentence
- ☐ Identify 3 upcoming posts and draft them using your messaging themes (credibility)

WEEK 3

03 Roll out your visual direction consistently.

- ☐ Update your LinkedIn cover image with your palette colors — it is the largest branded canvas most professional services brands have.
- ☐ Check that your website homepage reflects your palette — the hero section especially.
- ☐ Create or update a simple branded slide template for any presentations or proposals you send.
- ☐ Audit your profile image across every platform where clients find you — it should feel consistent with your visual direction.
- ☐ Review 5 recent posts or pieces of content — do they feel visually consistent?

04 Audit and tighten everything.

- ☐ Review all active channels (LinkedIn, personal website, email): does your voice feel consistent across all of them?
- ☐ Check that your brand colors appear consistently everywhere — cover images, profile photos, posts
- ☐ Confirm your CTA language is the same style across all channels
- ☐ Note 3 places that still need updating and schedule them for next month
- ☐ Share your brand anchor sentence with anyone who helps you create content
